

Headlamp Lens Data

U.S. - BUILT CARS 1929-37 Part II

HEADLAMP LENSES

This is a continuation of the Headlamp Lens Data series which we began in the May 2014 issue. Last month we featured Bi-Ray, Control Beam, Depress Beam, Flex Beam and some GloLite lenses. This month we continue with GloLite, Guide-Ray, Liberty, Monogram, Multibeam, Parabeam, Riteway, Solar, Stabilite, Supersafe, Tilt-Ray, Tractor, Tribeam, Twilite and Twin Beam lenses.

Next month we will begin the application charts for marques and lenses.

GLOLITE—Cont'd

Arranged in Order According to Outside Diameter of Lens

Diameter		*Position of Notches	Right or Left	Convex or Flat	Part No.	Price Each
Outside	Prism
